Light and good battery life

The laptop is extremely light, and the battery is more than enough to get you through the day. However, my unit had screen problems, but I sent it back and LG quickly resolved the issue.

Unbelievably Light and Fast

11 MONTHS AGO

I travel and do photography. I needed a laptop that could handle Photo editing programs and weigh very little to fit in my backpack This laptop fits the bill. I am very impressed with how fast it is. I have no regrets.
